

FREE HAWAII

THE COMMITTEE OF HAWAIIAN NATIONALS

19 January 2011

Aloha!

Governor Neal Abercrombie and
Members of the Hawaii State Legislature:

The Committee of Hawaiian Nationals wish to remind you, the elected officials of the so-called "State of Hawaii," that the serious violations, injustices and outright piracy committed over the past 118 years by the U.S. against the people of Hawaii and our nation will soon be coming to an end. As a courtesy, we suggest you make plans for the near future to vacate your positions as public servants in the current puppet government, the "State of Hawaii," and consider serving under the lawful Hawaiian Kingdom as it returns.

The demise of the infamous "Akaka Bill" in the U.S. Congress, leaves no more smoke-and-mirror distractions or excuses to delay just resolution for the illegal invasion, annexation and incorporation of the Hawaiian Islands into the U.S. Justice demands that the proper remedy for the injury is the reinstatement of Hawaii as a sovereign, independent nation...a FREE HAWAII.

The terms of the 1893 Executive Agreement between President Cleveland and Queen Liliuokalani, gives the President of the United States the sole directive and clear authority to initiate the process to restore Hawaii's independence. The fact that President Obama calls Hawaii his place of birth makes the situation ironically compelling from a number of aspects, including that of his actual nationality.

Hawaiian Nationals are pressing the issue on many fronts. Watch for significant movement in these areas in 2011...

- Legally – the alien tort case of *Sai v. Obama, et al* filed in the U.S. District Court in Washington D.C. has the potential to bring an end to the illegal U.S. occupation of Hawaii.
- Politically – formal complaints against the U.S. for violations of the sovereign nation-state of Hawaii (and it's people), are gaining serious traction with international bodies such as the United Nations. Expect countries like China and Russia to continue to allude to the Hawaii situation as a barb to criticize U.S. foreign policy.
- Locally – the movement to Free Hawaii is growing exponentially among the people as a movement with a developed national identity and a sophisticated understanding of history, domestic and international law, cultural personality and core values. Assertive acts of non-violent resistance (in the spirit of Queen Liliuokalani, Mahatma Gandhi and Dr. Martin Luther King, Jr.) will proliferate, challenging the status quo.

Hawaiian independence is going to happen soon.. The questions are: With or without your participation? Where will you stand morally? Will you perpetuate the injustice on this land and its people? Or will you stand for justice and perpetuate righteousness and a FREE HAWAII?

Ua Mau Ke Ea O Ka Aina I Ka Pono

Motto of the Hawaiian Kingdom
